requires Applicants to provide a list of such documents, it does not require Applicants to include in that list specific identifying information. 37 C.F.R. § 1.98(a)(2)(iv) further requires Applicants to provide a copy of such documents. Thus, the rules do not require that Applicant provide any particular set of information about the documents in category (2) prior to the Examiner's consideration of all the cited information. Nevertheless, in order to be as helpful as possible, Applicants have provided (a) information regarding the source of the documents, and (b) a title or description of each document. The prosecution record of a related non-U.S. patent application is the source for each document. For at least these reasons, Applicants respectfully request consideration of all documents submitted in the present Supplemental Information Disclosure Statement and entry into the record for the present application (Application Serial No. 10/561,734).

Applicants bring to the Examiner's attention the following non-U.S. patent applications.
